

You can totally spray someone with snow when your on a snowboard

## Down the Slope with Snowboarding

Can you imagine riding down on a snowboard through soft fresh snow? It just feels like your gliding on thin air. Snowboarding is a very fun and energetic sport, but it uses a lot of energy. So at the end of the day you will be very tired and ready for a warm fire. The difference between skiing and snowboarding is that I think that you can do more tricks with snowboarding.

## The benefits of snowboarding

Snowboarding gives you a great workout too, and it can make your leg and thigh muscles stronger. Snowboarding can also be dangerous at sometimes so you should wear a helmet at all times.

This is one of the tricks you can do if you snowboard

## The basics

The most basic turn in snowboarding is the C turn. That is when you basically make a turn in the shape of a C. It's not that hard if you want to stop just turn the board sideways.

## A fun job

Snowboarding is something you can do in the Olympics. It can be a professional career and a really fun job. So if you want to try something different, try snowboarding one time it's really fun.
