

Mrs Boldrick

Lice lice the tiny pest
I think it would be best
if they died soon like the rest
Itch Itch they crawl in your hair
getting them out requires great care
They soon lay eggs
millions go spawn with tiny mouths and legs
each bite a little bump
it goes thump thump
In the end is it not worth trying on that hat
to get a bunch tiny little skin eating rats

Connections For Ms.Hatch

From all over the world,
people join together in harmony.
But not without struggle.
That struggle makes us stronger.
From your neighbor,
to that guy you saw last week.
We are all together.
You are connected to everyone,
in some way.
Some ways good,
others harder.
But in the end,
We are the connections.
